Beat

Foldable Mini-Gamepad with Vibration

With Beat, DICOTA is putting an ultra-modern and efficient USB gamepad for mobile use on the market. Beat is specifically designed for all kinds of action games and educational software and runs under Windows® 98 / ME / 2000 / XP / Vista. The small, foldable Gamepad is equipped with 8 perfectly placed buttons and qualifies itself for mobile use. The self-retracting cable can be adjusted to the desired length and offers oustandingly comfortable in-game handling. The integrated TouchSense Technology from Immersion® makes for a special kind of gaming fun. This technology lets the player dive into the game with vibrating effects, thus enhancing the suspension and authenticity experience. The rubber coating of Beat lets the gamepad fit the hand perfectly and allows for quick responses by the player. Due to the supplied driver software, the installation of Beat is easy and ensures quick availability of the gamepad. Beat is the perfect choice for gamers that want to game as comfortable on the road as they do at home.
